**Personal Protective Equipment
Written Certification of Workplace Hazard Assessment**

This is to certify that Gary Hardin (Regulatory Affairs Manager) has evaluated maintenance procedures for all facility maintenance operations to include ammonia and electrical systems on January 2, 2016 in order to determine if PPE is required and, if so, what specific type.

The following PPE is required for these procedures:

<u>PPE Required</u>	<u>Specific Type</u>	<u>Hazard</u>
Respirator	Full Face (MSA)	Anhydrous Ammonia
Encapsulated PVC Suit	Level A SCBA	Anhydrous Ammonia
Face Mask	Plastic Shield	Eye Damage
Gloves	Insulated Rubber	Electrical Shock
Boots	Rubber Sole	Electrical Shock
Welding Mask	Filtered Lens	Radiant Light / Sparks
Welding Gloves	Leather	Burns
Safety Glasses	Plastic Lens	Eye Damage
